This exploded view diagram illustrates the assembly of a cable management system. The components are numbered as follows:

- 1:** A rectangular plate with four circular mounting holes, serving as the base for the system.
- 2:** A cylindrical component, likely a cable clamp or connector, shown in two positions relative to the plate.
- 3:** A cable with multiple conductors, shown in two configurations: one with a standard braid and another with a coiled spring section.
- 4:** A bracket or support arm that holds the cable in place.
- 5:** A small, hook-shaped component that secures the cable to the bracket.
- 6:** A small, circular component, possibly a fastener or a small connector, shown in two positions.

The diagram shows how these components are assembled onto the plate (1) to manage and secure the cables (3) using the clamps (2) and brackets (4).
